POWERTRAIN CONTROL

Syvecs S6PNP

The S6PNP is for customers who wish to have all the advantages that the Syvecs Range offers but house inside of the standard case for ease of fitment and not require any parts of the loom to be modified.

Technical specification is identical to S6GP except connector is the OEM for model and year of car specified and no case is supplied.

We can also develop PnP versions of the S6 for other makes and model of car on request.

Models available:
